*Evening use only. Most skin loves this one to three times a week. Some skin may even love nightly applications. Listen to your skin.*

- ① Immediately, while skin is dry and thirsty (*Obey the Thirsty Moment—read more on website*), mist generously with **DEVOTE** until almost dripping.
- ② Dissolve 1 scoop into 4-9 pumps of Hydrating Serum **FORTIFY** or **FEAST** (*will not work with **BALANCE** or other brands that lack specialized holistic actives*) using the palm of your hand and other finger to stir.
- ③ Apply Hydrating Serum **FORTIFY** or **FEAST**, boosted with **BRIGHT** and then **LAMINA**, as usual.

! In some cases the delicate eye area may need to be avoided when the serum is boosted with the Bright powder as the intensity and tingle factor is increased. Back off the frequency if your skin becomes irritated with tiny red temporary rash-like bumps. This means you are using too often for your unique skin or you are getting too much sun. Don't force this potent Vitamin C powder onto your skin.
